

Biological chemistry

- [List of theoretical questions to the submodule 1 "Basic aspects of metabolism" \(3rd semester\)](#)
- [List of theoretical questions to the submodule 3 "Metabolism of amino acids. Molecular biology. Biochemistry of intercellular communications"](#)
- [List of theoretical questions to the submodule 4 "Functional biochemistry"](#)
- [List of questions for Step 1 examination \(3rd semester\) for subject "Biochemistry"](#)
- [List of questions for Step 1 examination \(4th semester\) for subject "Biochemistry" \(Part 1\) \(Part 2\) \(Part 3\)](#)
- [List of questions to increase the score for current progress in 3 and 4 semesters \(2023-2024\).](#)
- [List of questions to prepare for the EXAM in biochemistry \(2023-2024\)](#)
- [Status of credit-modular system for study course "Biological Chemistry" specialization: 222. "Medicine"](#)
- [List of topics for reports at a conference lecture](#)
- [The procedure of organizing of biochemistry practical classes \(3rd semester\)](#)
- [The procedure of organizing of biochemistry practical classes \(4th semester\)](#)
- [Information on the procedure for conducting consultations and training in the discipline of "Biochemistry"](#)

Clinical biochemistry

- [List of theoretical questions to the final module control for subject "Clinical biochemistry"](#)
- [List of test questions to the final module control for subject "Clinical biochemistry"](#)
- [Information on the procedure for conducting consultations and training in the discipline of "Clinical Biochemistry"](#)

Nutrigenomics

- [Questions for the student's independent work for subject "Nutrigenomics"](#)
- [List of the theoretical questions to the final control for subject "Nutrigenomics"](#)

Pharmacology

Tasks for independent work and individual tasks in pharmacology

Section "Drugs, influencing peripheral nervous system"

<https://elearning.sumdu.edu.ua/s/2d-c8n>

Section "Drugs, influencing central nervous system"

<https://elearning.sumdu.edu.ua/s/60-c7v>

Section "Drugs, influencing internal organs and metabolism"

<https://elearning.sumdu.edu.ua/s/c7-dcx>

Section "Chemotherapeutic drugs"

<https://elearning.sumdu.edu.ua/s/54-dqw>

- [List of questions to the final module control for subject "Pharmacology"](#)
- [Status of credit-modular system for study course "Pharmacology and medical prescription" specialization: "Medicine" and "Paediatrics"](#)
- [Information on the procedure for conducting consultations and training in the discipline of "Pharmacology"](#)

Clinical pharmacology

- [The calendar-thematic plan of practical lessons and independent work on clinical pharmacology](#)

- [List of questions to the final module control for subject "Clinical pharmacology"](#)

-

[List of test questions "Step" for subject "Clinical pharmacology"](#)

- [Medical preparations to the final module control for subject "Clinical pharmacology"](#)

- [The plan of the writing of the report of the estimation of efficiency and safety of the pharmacotherapy](#)

- [Schedule of practical classes for subject "Clinical pharmacology"](#)

- [Information on the procedure for conducting consultations and training in the discipline of "Clinical Pharmacology"](#)
